Our standard target turnaround is 7 - 10 working days or less from the date you pay your invoice; 4 working days for Express; 2 working days for Super Express
 * For most film stocks we can push up to 3 stops & pull up to 1 though this may vary. We will push or pull in accordance with your instructions but please check the manufacturer's recommendations regarding push/pull processing for the film stock. Push processing increases contrast & grain and affects colour balance.

NEGATIVE RETURNS - Please tick your chosen option:

You can dispose of my negatives once I've received my scans safely

Please save my negatives (To reduce postage costs for you we will cut, sleeve & archive your negatives for up to 12 months or until they reach a thickness of approximately 1 inch, then send you an invoice for their return via mail).

PRICING - For pricing information please visit <http://canadianfilmlab.com/pricing>

SCAN SIZE - Our approximate scan sizes (shortest edge) are: Small: 2433 pixels. Medium: 3047 px. Large: 3649 px.

Please visit <http://canadianfilmlab.com/canadian-film-lab-order-form/> for information on how and where to ship your film

When we receive your film we will email an acknowledgement and online invoice to you, which will include the date by which you can expect your scans. When ready, we will email you a link to download your scans.

^We will use this email address to add you to our newsletter mailing list and to send you occasional important updates about our services. We promise we won't spam you, but let us know if you prefer not to be included.
