					Express Max 4 working day (1.4 x supplement)	Super Express Max 2 working day (2 x supplement)	
			☐		☐	☐	
			☐		☐	☐	
			☐		☐	☐	
			☐		☐	☐	
			☐		☐	☐	

NEGATIVE RETURNS Please select your chosen option - Save negatives or Dispose (mandatory field):

	☐
If you choose to save your negatives, to reduce postage costs for you we will cut, sleeve & archive your negatives, and return them in batches	☐

Our standard target turnaround is 7 – 10 working days or less from the date you pay your invoice.

*For X-pan/panoramic format/full frame we charge a small supplement – please see website. As standard, we scan 35mm half frame film (e.g. Pentax 17) as diptychs (pairs), but we can scan half frames individually for a supplement of x1.8 per roll.

*** We will push up to three stops & pull up to one in accordance with your instructions, but please check the manufacturer's recommendations. Push processing increases contrast & grain and affects colour balance.

PRICING: For pricing information please visit <http://canadianfilmlab.com/pricing>

SCAN SIZE: Our approximate scan sizes for 35mm (longest edge) are: Small: 3637 px. Medium: 4547 px. Large: 5444 px. Other formats vary – please see our FAQ page for more details: <https://canadianfilmlab.com/faq/>

PRINTS: For details and pricing please visit <http://canadianfilmlab.com/prints>

SEND YOUR FILM HERE:

Canadian Film Lab, 65578 Gordon Drive, Hope, British Columbia, V0X 1L1, CANADA

Please visit <http://canadianfilmlab.com/canadian-film-lab-order-form> for packing and shipping guidance.

When we receive your film, we will email an acknowledgement & online invoice to you, which will include the date by which you can expect your scans. When ready, we will email you a link to download your scans.
